

COMPANY OVERVIEW

Burton Planning Services (BPS) was formed in 2008 by Kimberly Burton, P.E., AICP, P.E., AICP CTP, LEED AP ND, and has completed over 120 planning, engineering, and environmental projects to-date. The Ohio-based company's mission is to provide results that are timely, affordable, and customized for the client's specific needs, with a commitment to sustainable solutions. BPS is a State of Ohio certified DBE and EDGE firm and a licensed engineering firm. In addition, BPS is a National Complete Streets Coalition Bronze Partner, a U.S. Green Building Council Organizational Member, and is involved in TRB's Transportation Noise & Vibration Committee.

BPS' multi-disciplinary staff have skillsets in city & transportation planning, economic & community development, civil engineering, environmental studies, zoning, graphic design, and public involvement, and the firm maintains six environmental and two engineering ODOT Prequalifications. The staff is experienced in managing the preliminary steps through the final design stages of projects and has worked with a wide variety of clients in multiple states. With the staff's extensive expertise, BPS can provide the comprehensive range of customized planning and environmental solutions of a large company balanced with the flexibility and cost effectiveness of a small firm.

THE BPS SMALL BUSINESS ADVANTAGE

With our expertise, we are committed to providing a comprehensive range of customized planning and environmental solutions for our clients. Being a small business has several key advantages:

FLEXIBILITY: We are very flexible and can quickly adapt to a client's needs

TIMELINESS: We can provide high quality, professional results in a timely manner

EXPERTISE: We have experienced multi-disciplinary people on staff to provide superior solutions to its clients

COMMITMENT: Our professionals are passionate about what we do and are committed to our clients

RELATIONSHIP: There are no "middle men" or sales people – only the professionals who will work with their clients from start to finish

COST EFFECTIVENESS: A small business operates without a large overhead, so services can be performed in a very cost effective manner
