

Comprehensive Growth Plan Update

City of Livingston, Montana

PROJECT DESCRIPTION

BPS is working with the City of Livingston, Montana to update the City's Comprehensive Growth Policy. This updated Growth Policy will serve as an integral land use planning guidance tool as the community, including the 2-mile extraterritorial jurisdiction, grows and develops. Ultimately, the Growth Policy will name the best locations for growth and assist the City with ensuring that development and investment occurs appropriately. The Growth Policy will also include policies and recommendations for trails and walkable communities.

Stakeholder and public involvement have been instrumental in the development of the Growth Policy. This involvement will allow the Plan to reflect the desires and needs of the community as well as the existing and future capacity of the city's infrastructure, economy, and natural environment. To facilitate community engagement, BPS developed a project website (www.burtonplanning.com/LivingstonGrowthPolicy/) that provides members of the community access to planning updates. The website features information on the planning process, meeting dates and materials, links to digital surveys, as well as opportunities for people to get involved. Individuals can register for email updates and also provide comments directly through the website. To date, over 115 people have signed up for email updates on the Growth Policy, and over 1,000 people have completed the digital surveys.

LOCATION

City of Livingston, Montana

HIGHLIGHTS

- Developed detailed project website where people can remain up-to-date on the update
- 1,000+ Survey Respondents
- Existing Conditions assessments
