

SAN-19-13.70 BRIDGE DESIGN PROJECT

OHIO DEPARTMENT OF TRANSPORTATION, DISTRICT 2

LOCATION

Sandusky County, Ohio

TASKS

- Stage I Bridge Design
- Maintenance of Traffic Plan

HIGHLIGHTS

- Assisted with bridge design tasks
- Drafted maintenance of traffic plan
- Reviewed plan sheets

PROJECT DESCRIPTION

This project included the rehabilitation of three bridges on State Route 19 in Sandusky County, Ohio. BPS served as a subconsultant and assisted with Stage I bridge design tasks, maintenance of traffic plan development, and plan review. BPS participated in work sessions to assist on the bridge design tasks, drafted the maintenance of traffic plan, and later performed a thorough review of the plan sheets to ensure that the plans followed the Ohio Department of Transportation's Bridge Design Manual requirements.
